

# NORTHERN SUNSET

Type: Sativa

Lineage: Northern Lights X Amnesia Haze

Breeder: Homegrown Cannabis Co.

At Sunset Lake we know a thing or two about a **Northern Sunset**. And, just like a classic Vermont sunset, the effects are clear, bright, and joyful. With a complex bouquet of mango, black peppercorns, pine sap, and lemongrass, Northern Sunset is activating without feeling frantic, making it a great choice for daytime use. We recommend having some tunes queued up that have a solid beat and a dancy vibe.

## Experience Profile

Onset

Rapid

### Cannabinoids

THC: 21.23%  
 CBG: 0.42%
